REMARKS

Some of your friends interested in Dahlias will surely be glad to receive our catalogue. Do them a favor by writing their names and address below. Thank You.

General Information to Dahlia Growers

This catalogue is issued with the intention of giving a brief description of the latest dahlias in cultivation in this country at the present time.

It is alphabetically arranged so that the busy man or woman can find what is wanted quickly.

We are giving the originator's description where possible and are listing nothing in this catalogue but what we have seen grow and bloom.

Our terms are cash with the order. All retail orders will be shipped parcel post, prepaid. Dahlia tubers will be shipped unless otherwise specified soon after May 1st, unless earlier planting is wanted in the South, then shipment will be made at the option of the buyer.

Our inability to produce Green Plants early of sufficient size and quality has caused us to withdraw all offers on plants this season. We are still propagating and will have a large stock of plants in all the good varieties but will sell them only by direct correspondence with our customers. We prefer to offer good strong tubers only at the lowest possible prices. They are sure to give the best satisfaction to dahlia growers.

We shall make no substitution of any order unless directed to do so by the purchaser.

You may notice that we issue no cultural directions in this catalogue. Dahlias will grow in almost any soil or climate if they are grown from strong, healthy tubers. We find dahlias at times subject to disease. We find this disease easily controlled by the use of strong nicotine powders blown on the plants with a duster, from planting time well on into the season.

Our dahlias are not forced. They are grown in the field and cultivated by horse drawn machinery. We sell no cut flowers, use no stakes and grow only for tubers. Customers will find our tubers strong, healthy, good for propagating on the bench and wonderful growers in your garden.

Prices in this catalogue are retail. We are large growers of dahlias and can quote attractive wholesale prices to dealers for resale. Our wholesale list will be sent to the trade on request.

All stock sent out by us is guaranteed true to name. We have carefully gone over our fields and rogued out all dahlias from our stock that did not show to be true.

Our reference is the City National Bank and Trust Company, Salem, New Jersey.

DAHLIA SEED

We offer while it lasts one grade of seed at \$1.00 per package, six packages for \$5.00.

This seed is selected by us from all the dahlias we grow also from two reliable growers in California and in each package seed imported from one of the largest growers in England. Each package has an equal amount of seed from the four above named sources, and should produce some wonderful seedlings.

MIXED DAHLIA TUBERS

In storing, cutting and handling as many tubers as we do accidents happen—labels are lost, baskets are upset, tubers become mixed in the bins. It is too much trouble to plant them out another year. We throw them all into a mixture. Every dahlia in this lot is a well known variety with no label and will make a splendid show in your garden next summer. We will sell them while they last at \$3.00 per dozen, postpaid. In Canada, \$3.25 per dozen, postpaid. This is the greatest bargain ever offered in fine dahlias.

PEONIES

We have over two hundred varieties of the world's choicest peonies collected from all over this country and Europe. These plants are now eight years old and in the height of their blooming ability. We have thousands of one, two and three year old plants which we will put on the market next October. Readers of this catalogue who are interested in peonies if they will write us, we will send them a catalogue or list of prices about July 1, 1929. Our peonies are raised in heavy soil, the roots are of good size, many having from three to seven eyes, if planted next October they will give a reasonable amount of bloom in June 1930. We do not send out any plants with one or two eye divisions. Our prices may be a little higher than dealers who send out small divisions, but they will bring the purchaser good returns on his investment.

We advise all readers of this catalogue to join the American Dahlia Society at once. You can secure valuable information from their Dahlia Bulletin. Send \$2.00 to Wm. J. Rathgeber, Secy., 198 Norton St., New Haven, Conn. You will never regret it.
